

# Broadband Connecting Nebraska Conference

## Register now the 2013 Broadband Connecting Nebraska Conference!

Hear keynote addresses by futurist Jack Uldrich and entrepreneur Steve Kiene of Nebraska Global.

### Connect the Dots: Explore IT Careers!

*Hosted by UNL Extension 4-H Youth Development and the AIM Careerlink*

Do you enjoy creating video games? How about creating new software programs? Or maybe even designing graphics? This hands-on workshop will help you learn more about the choices you will need to achieve your desired career path in an IT field.

### Geospatial Thinking with Maps and Apps

*Hosted by UNL Extension 4-H Youth Development*

Take geospatial thinking to a new level! Explore how geography and geographic information systems (GIS) help people make smart decisions that improve lives, respect our natural resources, and make a positive impact in our world.

### More Food for Everyone! Precision Agriculture's Use of GIS

*Hosted by UNL Extension*

In the future, global food production will need to increase by 70 percent. Precision agriculture is the answer! Learn how precision agriculture uses geographic information systems (GIS) to help farmers and manufacturers decide about how and when they plant, grow, irrigate, harvest, and transport crops.

The conference takes place on October 16 & 17, with a special Youth/Student Track on Wednesday, October 16. Registration is FREE for full-time students and faculty members.

To register as a student or faculty member, go to [goo.gl/tqtmGA](http://goo.gl/tqtmGA) and follow the instructions. Details on the Youth/Student Track and the full conference agenda is available at [broadband.nebraska.gov](http://broadband.nebraska.gov).

For more information, please contact Rod Armstrong at [rarmstrong@aimforbrilliance.org](mailto:rarmstrong@aimforbrilliance.org).
