Project Type Activities

|                          |  |
|--------------------------|--|
| <input type="checkbox"/> | Aboveground Enclosure Installation           |
| <input type="checkbox"/> | Aerial Fiber Installation (Existing)         |
| <input type="checkbox"/> | Aerial Fiber Installation (New)              |
| <input type="checkbox"/> | Backfilling                                  |
| <input type="checkbox"/> | Clearing and Grubbing – Tree and Shrub       |
| <input type="checkbox"/> | Clearing and Grubbing – Non-woody Vegetation |
| <input type="checkbox"/> | Directional Boring                           |
| <input type="checkbox"/> | Erosion Control – Barriers                   |
| <input type="checkbox"/> | Erosion Control – Erosion Checks             |
| <input type="checkbox"/> | Erosion Control – Inlet/Outlet Protection    |
| <input type="checkbox"/> | Erosion Control – Mulching                   |
| <input type="checkbox"/> | Erosion Control – Rolled Erosion Control     |
| <input type="checkbox"/> | Erosion Control – Slope Interruption         |
| <input type="checkbox"/> | Erosion Control – Traps and Basins           |
| <input type="checkbox"/> | Erosion Control – Vegetation                 |
| <input type="checkbox"/> | Grading Outside the Hinge Point              |
| <input type="checkbox"/> | Fencing                                      |

|  |   |
|--|---|
|  | Habitat Fragmentation, Modification of Connectivity         |
|  | Landscaping   |
|  | Locating Existing Utilities                                 |
|  | Pipe Jacking and Casing Installation                        |
|  | Pole Construction   |
|  | Pole Guying/Anchoring                                       |
|  | Rock or Gravel Surfacing                                    |
|  | Satellite Antenna/Dish Installation (Building/Pole Mounted) |
|  | Surveying and Staking                                       |
|  | Trenching   |
|  | Underground Vault Installation                              |

Project Description

IPaC Project Code

Visit <https://ipac.ecosphere.fws.gov/> to create an IPaC project. Please include an official species list and all applicable Dkeys along with this form in project review request.

Project Location

Lat, Long

Action Area\*

Species in Action Area

| Species/Critical Habitat | Species Status | Suitable Habitat Present (Yes/No)<br><a href="#">View NEFO Conservation Measures for Habitat</a> | Define Relevant Stressors* |
|--------------------------|----------------|--|----------------------------|
|                          |                |  |                            |
|                          |                |  |                            |
|                          |                |  |                            |
|                          |                |  |                            |
|                          |                |  |                            |
|                          |                |  |                            |
|                          |                |  |                            |
|                          |                |  |                            |
|                          |                |  |                            |

\*[Section 7 Consultation Technical Assistance Glossary of Terms](#)

## Conservation Measures

View [NEFO Conservation Measures](#) for recommendations on avoidance and minimization measures

## Effect Determinations

*Make an effect determination of the action for each species and critical habitat. Consider the above species habitat presence, relevant stressors, and voluntary avoidance / minimization measures. View [NEFO project planning and review Step 2e](#) for more information about effect determinations.*

Determination

Species/Critical Habitat

No Effect

May Affect, Not Likely to Adversely Affect

May Affect, Likely to Adversely Affect

Excluded from Analysis (for proposed or candidate species only)

Please submit this letter along with the below enclosures to [NebraskaES@fws.gov](mailto:NebraskaES@fws.gov)

- 1) Project map
- 2) Official species list
- 3) All applicable DKeys
- 4) Other relevant project data or documents
