Financial Monitoring is based on assessed risk level. Risk levels were set per subgrantee during the Organizational Application stage of NBEAD; and annual updates will be based on documentation collected during annual reports. For each monitoring event, NBO staff will communicate specific needs appropriately to support timely submission and processing.

Please note: if issues are discovered in sampled documentation, additional information may be required to complete monitoring.

Risk Level	Submit Source Documents for Financial Monitoring	
Low	Once per year, for a sampling of transactions	
Medium	Up to three times per year, for a sampling of transactions	
High	With each quarterly report, for a sampling of transactions	

Once your deployment project is complete, reporting will shift to a semiannual schedule, as outlined below.
