

# NDEE Interactive Mapping System

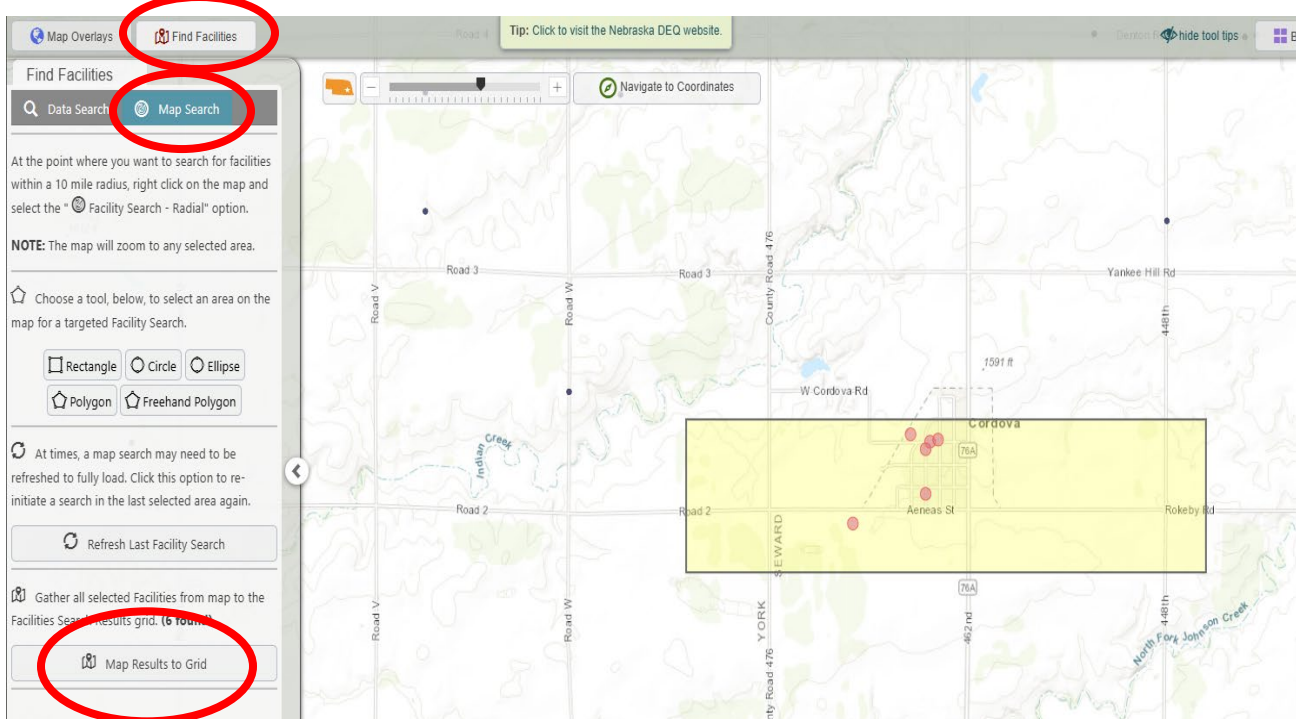

## Hazardous Materials

### [Interactive Mapping System Website](#)

1. Open the NDEE Interactive Mapper. Enter an address or place in the search bar at the top right-hand corner.

2. While zoomed in on your project location, select the **Find Facilities** tool from the left-hand side of the map, then select the **Map Search** tab, and use one of the draw tools to outline the project area. After you've outlined the project, select **Map Results to Grid**.

3. If there are any facilities in the area, check **Yes** for question 13a. The regulated facilities will be listed on a new tab at the bottom of the map, and information about the existing programs at each site can be downloaded from available documents if needed.
